

DiEntry[©] : CapDI[©] for the Residence

Tunable, environmentally responsible point-of-entry
water purification for your family and residence.

Pure water is JUST the beginning...

What is DiEntry?

DiEntry is the *next generation* of home water purification systems and addresses the most pressing water issues in the market: quality, taste and waste. DiEntry does more than purify water, it allows a home's water to be customized to the needs of the homeowner and community, all while wasting less water and improving the homeowner's environmental footprint. DiEntry is simple to install, use and maintain, requiring no salt and a smaller overall footprint than other home water treatment systems, resulting in a lower total cost of ownership. The core technology within DiEntry, CapDI, has been proven effective in hundreds of installations across the globe.

Ask More From Your Water!

DiEntry is the perfect fit for your family and residence, but also tunably purifies water for many other applications:

*Schools
Misters
HoReCa
Hospitals
Ice Machines
Spot-Free Rinse
and more!*

Homeowners:

DiEntry has unlimited benefits for homeowners! Our innovative CapDI technology allows you unprecedented control over the quality and taste of your home's water, all while reducing your environmental footprint. Easy to use and maintain, DiEntry saves you money through a lower total cost of ownership with higher quality water that is better for your skin, hair, laundry and valuable appliances!

Home Builders:

DiEntry sets your brand apart by providing fundamentally better water running through your homes - and out of them. CapDI positions you to be on the cutting-edge of water purification technologies, allowing you to offer your homeowners the ability to customize the quality of their pure water. DiEntry uses and wastes less water, achieving environmental responsibility and making it easy to comply with current and future sodium chloride discharge regulations.

Resellers:

CapDI, the innovative technology within our DiEntry Systems, sets you apart from other water treatment consultants and resellers while positioning you as a more forward-thinking, smarter water professional. Voltea is here for you, offering system support if and when you need it. We want you to be successful with our technology, which has been proven to work in hundreds of installations and a wide range of applications. Interested in becoming a CapDI distributor? Go to www.voltea.com.
